

Official Village Greenes Community Notice

VG COMMUNITY **SNOW REMOVAL PROCEDURES**

In anticipation of the approaching winter weather season, The Board of Trustees would like to review the VG snow removal procedures:

- The snow removal (Sidewalks and Driveways) is done by contract with Outdoor Solutions who also has a contract with the Township to plow our streets as well.
- The decision to begin the removal of fallen snow is made by George Orfe (Board liaison for Land Management) in conjunction with Outdoor Solutions based on the amount of snow forecasted, the temperature for the day, and subsequent weather for the following day(s).
- ***Snow removal will be started only if the amount is 1 inch or more, depending on the weather once the snow has ended.*** In some cases, only the shady side of the streets will be done if the weather indicates that warming of temperatures and sunshine will likely melt the snow on the sunny side of the streets.
- Plowing of the streets will be done first, followed by driveways and sidewalks. Areas around mailboxes will also be done.

- ***If the weather event is mostly ice, it is the resident's responsibility to spread ice melt on individual properties. Calcium Chloride is the recommended material to spread,*** so as not to damage the concrete, walkways, and driveways – especially if driveways are other than blacktop.
- If a resident chooses not to have Outdoor Solutions clear their property, the resident **MUST** submit a letter to the office indicating that choice and find something to mark the area of the property that is not to be done – such as a cone(s) or other objects and placed at the bottom of the driveway.

We are also putting together a list of “special needs” residents who need to have their driveways cleared first. These “special needs” are:

- **A medical condition that would require emergency service access.**
- **Anyone who receives hospice services or treatments due to an illness.**
- **Anyone employed as a First Responder, Nurse, Doctor or Police officer.**

Should you fall into one of these categories, please submit your name, address, and reason for needing this service to Jackie Holden at Jackie.holden@associa.us or call the management office at (856) 596-9660.
